

## COMMUNITY OUTREACH 2018

- Supported the organizations below through donations:

American Cancer Society

Toys for Tikes

Memorial Hospital Foundation

Common Thread for Cure

Junior Achievement

YMCA

Dubois County Community Foundation

Jasper Fire Department

Buffalo Trace Council Boy Scouts of America

Jasper Community Arts

- Employees participated in the Adopt-a-Highway, which involved trash collecting on a local highway helping to keep the community clean throughout the year.
- Provided tours to local eighth grade students in October, which introduced students to manufacturing, while also encouraging them to consider manufacturing as a career.
- Participated in Manufacturing Day at Vincennes University Jasper (VUJC) in an effort to educate the community about our business and the benefits of a manufacturing career. Along with additional area businesses, we set up, and demonstrated products we manufacture. Throughout the day, the opportunity was used to explain, to both students and the general public, how our manufacturing process works.
- Throughout the year, we employ high school students as interns in various departments.
- Versteel has a partnership with University of Cincinnati DAAP program and provides co-op experiences for college students in our Engineering and Product Development Departments.
