

Ty

Training, Meeting + Dining

AVERTS FEEL

Ty tables offer easy mobility and adaptability, allowing users to reconfigure workspaces efficiently. Rectangular training tables are available in fixed or slim-tilt versions, with or without modesty panels and with linking capabilities. Increase productivity with individualized or non-sequential power.

Ty tables feature minimalist, steel legs with a high angle for cleanability and an agile appeal. Training tables flip, move, nest and store tightly, enabling quick transitions between work modes. Round and square tables are distinctively modern, elevating meeting, lounge and dining spaces.
