uno²

“ This contemporary, rectilinear series has a working pedigree and a lineage of classic design, making it a number one ‘go-to’ when you need a solid solution. ”

Uno times Uno equals . . . UNO!

BASES | Uno² bases may appear simple by design, but they are engineered with Versteel strength and durability so you know they will withstand the rigors of a present-day environment.

Available in T (standard), TC (cantilevered), and L (for maximum knee space), Uno² bases are welded and finished in our Jasper, Indiana manufacturing facility.

Choose from fixed, folding, tilt, or slim-tilt.

OPTIONS | Add modesties, power/data, mobility, wire management, linking, and/or tilting to create training, dining, collaboration, and conference tables.

Turn your basic table into a modern work surface with Versteel's substantial offering of power and data units.

Uno² is also an excellent choice for computer labs when fitted with Laptop Lockers and Form Modesties (exclusively from Versteel).

SPECIFY | Select from the extensive Versteel powder coat offering for your Uno² bases, or bring out the bling with chrome and nickel.

Top materials include (but are never limited to) laminate, veneer, and solid surface with edge banding of PVC, 3mm wood, or finished lumber.

And don't forget about our comprehensive catalog of wood finishes, as well as custom stain matches.
