Parsons Table

VERSTEEL

Parsons Table creates the most stable platform available with integrated wire management and easy assembly. A unique construction technique allows the table to ship flat for on-site installation and once assembled all fasteners are concealed. End panels are available with wire management access for power and data specification.

Designed by The Versteel Design Team.

SPECIFICATIONS
- Panel thickness is 2"
- Under top support thickness is 1.5"
- Available in 29", 36" and 42" table heights

FEATURES
- ADA side table available for 29" high tables
