TABLES

**Tops**

Laminate and veneer tops are 1 1/4" thick. Corian® tops have a 1" top thickness. All are standard with radius corners.

Leg Materials

The elliptical legs are available in Versteel's standard or Studio Steel® process. All standard powder coat finishes are available in addition to Chrome or Nickel when Studio Steel is not specified.

Features

The 30" tall tables are available with two (2) USB ports integrated into two or four legs. If no USB ports are desired the legs will have Black Anodized end caps which match the Black Anodized tubular understructure. A 10' long power infed cord provides power to all USB ports. Tables are standard with 2" diameter nylon adjustable glides. Glides allow .5" adjustment of the table.

Wire Management

The tubular understructure incorporates wire management. Legway wire managers are included when tables are ordered with USB ports.

Laminate and Veneer, Standard Core Construction

The standard top construction consists of 45-50 lb particleboard, surfaced with a high pressure laminate or plain sliced veneer face. A backer sheet is laminated to the underside of the top. Tops are shipped with rectangular understructure attached and pre-drilled for field installation of bases and accessories.

Corian® Construction

Tops are ½" Corian® with a 7/16" thick plywood subtop glued to the bottom side with a ½" Corian® rim applied to conceal the plywood subtop. The underside is bored to allow pressing in metal screw inserts for field installation of the legs and/or connectors.

PVC Flat or Fluted Edge

Edge of 2mm PVC hot melt banded to the top with ⅛" radius at the top and bottom.

Offered in twenty-one (21) standard colors.

Reverse Bevel Acrylic

Edge of 2mm acrylic edge banding hot melt banded to MDF core. A reverse bevel is then cut into the edge exposing the MDF on the reverse bevel. The MDF is then clear coated.

Wood Flat or Fluted Edge

Wood banding hot melt banded to the top with ⅛" radius at the top and bottom.

Offered in Ash, Cherry, Maple or Walnut materials.

Corian® Eased Square Edge

A traditional 1" flat edge with a small radius where horizontal surfaces meet vertical for comfort and a softened aesthetic. Offered in seven (12) standard colors.

Studio Steel®

Versteel's "urban fabrication" process leaves the telltale signs of welding and assembly on the surface, highlighting a manufacturing aesthetic. Choosing a clear or transparent powder coat is recommended, allowing tonal striations (created as a result of extreme heat), natural textures, and inherent qualities of raw steel to show through. Chrome and Nickel are not available with the Studio Steel process.
