

Acrylic Panels

VERSTEEL

Acrylic Panels delineate a workspace and create a sense of solitude. The frosted or clear acrylic screens attach to rectangular tops up to 30" wide and 72" long. Permanent mount provides a long-lasting solution for fixed tables. Clamp-on mount allows privacy for tilt tables and variable use. Panels can be ordered with a table or as an add-on to an existing table.

SPECIFICATIONS

- Acrylic panels are 24" high (23.5" with 0.5" wire management gap)
- Panel thickness is 0.25"

FEATURES + BENEFITS

- Frosted acrylic standard
- Clear acrylic with extended lead time
- Permanent mount or clamp-on mount
- Order with table or as an add-on to an existing table
