Maker A

Maker A tables and benches take The Maker Project another step ahead with an aesthetic A frame for work and play. The welded frame is simple, deceptively strong and absolutely urban. Available in work, counter and stand-up heights with heavyduty adjustable glides. Studio Steel is standard with The Maker Project, yet can be specified in any Versteel powder coat.

Part of The Maker Project by Versteel, an urban series which includes tables, seating and a white board.
