

The Maker Project

Guest + Stool Seating

TESTS REVEAL

Find beauty in everything.

Simple yet robust, the Maker Seating embraces urban industrialism with an armless, sled base style. Studio Steel® process is standard, showcasing telltale signs of individually handcrafted fabrication. Seat and back are maple butcher block with a clear coat. Available in 18", 24" and 29" seat heights.

Part of The Maker Project by Versteel, an industrial series which celebrates the inherent qualities of fabrication and manufacturing.
