Standard Versteel Upholstery

Standard Versteel Upholstery offers a range of materials, from fabrics in a variety of colors and textures to vinyl for soil resistance. Please refer to Versteel's fabric cards or the "Materials + Finishes" section of our website for reference information.

Grade-In Upholstery

Versteel has coordinated with upholstery manufacturers to simplify your order process. Many of the manufacturers' offerings have been pre-approved for application on Versteel Seating.

Contact Versteel Customer Service with your selected fabric choice to be graded in. They will supply you with the appropriate grade-in designator. On your purchase order, complete the information with the pattern name, color description and grade-in designator, and Versteel will take it from there.

Customer's Own Material

Customer's Own Materials (COM's) are not an issue on OH!. Many COM's are pre-approved for application on Versteel Seating. Call Versteel Customer Service with your COM selection to determine if it has been pre-approved. If your selection has not been pre-approved, reference the "Receiving COM Approval" section below.

Receiving COM Approval

Not all materials are suitable for upholstery on OH!. A 12" X 12" memo sample must be supplied for approval before a COM material is accepted for an order. If the material is directional in pattern or weave, the pattern repeat (in inches) in both directions or the weave direction must be supplied.

Excess COM

Versteel will not store excess COM for more than 30 days after the order has been completed. If excess material is to be returned after order completion, send the request to Versteel Customer Service prior to acknowledge ship date. It is the customer's responsibility to arrange for the return of the material "freight collect."

Seat Accent Fabric

The OH! seat band may be specified in a different fabric than the rest of the unit. Specify and add \$372.00 list per unit.
Seat Accent Fabric**.SAF**

COM Requiring Application Test

If an application test is required for your selected COM, send test sample material along with the following:

- Name and return address
- Chair model selected
- Sketch showing special requirements for the positioning of the material's pattern on the chair seat and chair back, if special considerations are required.

Ship COM to:

Versteel
2332 Cathy Lane
Jasper, IN 47546

COM must be shipped to the factory with transportation costs "prepaid." If material is considered defective or unusable, it will be returned "transportation collect."

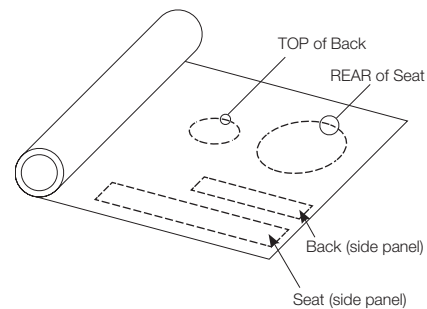

For standard lead time orders, tag fabric with purchase order number and identify with project number if possible.

Application of Directional Fabrics

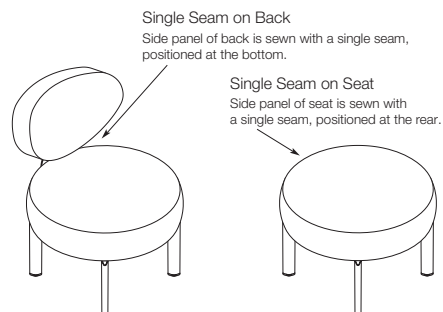

Due to the upholstering process, some fabrics not considered directional by the supplier may be considered directional by Versteel.

All COM's for OH! are railroaded unless otherwise directed by the customer (see illustration below).

EXAMPLE PATTERN CUT RAILOADED

If special cutting or upholstery application is required, you must indicate requirement at time of order entry.

OH! COM Yardage Requirements

COM yardage requirements are calculated based on a material width of 54" and a repeat of 2" or less. For material less than 54" wide, contact Versteel for yardage requirements. Use the chart below as a guide to calculate your COM yardage. For quantities greater than 10, contact Versteel Customer Service for calculation of COM yardage by chair model.

NOTE THIS CHART IS NOT APPLICABLE FOR MULTIPLE FABRICS ON ONE UNIT. CONTACT VERSTEEL CUSTOMER SERVICE FOR YARDAGE REQUIREMENTS WHEN SPECIFYING MULTIPLE FABRICS.

Patterned COM Additional Yardage Guide

Use the guide below to aid in ordering the appropriate COM fabric when needing to match a pattern with a repeat. To use this guide, add the vertical and horizontal repeats together (e.g. a 5" vertical repeat plus an 11" horizontal repeat gives a 16" total). Then find the appropriate entry on the chart, and increase the yardage estimate by the percentage indicated.

For example: The yardage estimate is 8 yards of 54" wide fabric and the pattern has a repeat of 11" horizontal and 5" vertical. Add up the repeats (11" + 5" = 16") and find the appropriate entry - 15% in this example. Fifteen percent more fabric is required to match the pattern. 8 yards plus an extra 15% is 9.2 yards.

Decorative Patterns

Yardage requirements are greatly affected by the size of the repeat and the print or pattern of the material. Versteel cuts all seating patterns with aesthetic concerns in mind for high quality and consistency. Refer to the COM listing for the yardage required for pattern repeat.

Repeats and Striped Fabrics

The geometry of curved products prevents repeats and stripes from matching at the seams.

NOTE CALIFORNIA TECHNICAL BULLETIN 133 (CAL 133) COMPLIANCE HAS BEEN ESTABLISHED THROUGH THIRD-PARTY TESTING OF THE PRODUCTS. ALL CHAIRS THAT MEET CAL 133 STANDARDS WILL HAVE A LABEL ATTACHED TO THE UNDERSIDE OF THE SEAT TO MAINTAIN COMPLIANCE, THE LABEL MUST NOT BE REMOVED FROM THE PRODUCT.

Configure

Utilizing basic components (a single leg, seat, back and connector) of polished, cast aluminum, OH! is simplistic in its approach to modularity. Legs are positioned for strength and stability while connectors are used to organize the seats into configurations. By using the connector, a set distance is established between individual seats to create personal space. Plush seats, along with a curved ergonomic back option, allow users to position their bodies without interfering with their neighbors. This ensures that everyone can find their own comfort solution. Seats are generously sized and proportioned.

Because the circle is the basis for the seating series it is possible to create an infinite number of configurations, as the designer is no longer bound by a corner. Typical OH! configurations include L, T, X and Y as well as unlimited numbers of runs, arcs and serpentine.

The use of the circle eliminates any sidedness to backless configurations. The addition of a back can be used to guide users to approach sides.

Tables

Tables can be inserted at any point of any configuration for optimum flexibility.

Upholstery

Upholstery may be specified in monochromatic (single textile choice) or contrasting applications (different textiles on different parts). No contact between upholstery surfaces makes for an easy to clean and more hygienic product.

**Power**

The Twine corded system offers mounted, and below-surface power and USB to multiple users in a range of settings. With just one infeed, this system can power up to six (6) Mini-Tap units.

Mini-Tap power can be added to any seat as an undermount option, or to any 24" diameter table as an integrated or undermount option.

Wires seamlessly run between seats via a concealed channel located on the underside of the connector.

Additional power and data can be added to any seat as an undermount option, or any table as an integrated or undermount option.

Large Configurations

Versteel will help with your configuration if you have concerns. Simply call Customer Service and provide the dimensions of your space and the type of configuration you desire. Like any other space planning, it is helpful to know where the power and data sources are, as well as windows, doors, any other obstructions and proposed traffic patterns.

All configurations are priced with powder coat frames and Grade 2/COM fabric. Tops are priced with standard laminate and PVC edges.
