**Standard Versteel Upholstery**

Standard Versteel Upholstery offers a range of materials, from fabrics in a variety of colors and textures to vinyls for soil resistance. Please refer to Versteel's fabric cards or the "Materials + Finishes" section of our website for information.

**Grade-in Upholstery**

Versteel has coordinated with upholstery manufacturers to simplify your order process. Many of the manufacturers' offerings have been pre-approved for application on Versteel Seating.

Contact Versteel Customer Service with your selected fabric choice to be graded in. You will be supplied with the appropriate grade-in designator. On your purchase order, complete the information with the pattern name, color description and grade-in designator, and Versteel will take it from there.

**Customer's Own Material**

Customer's Own Materials (COM's) are not an issue on The Maker Project. Many COM's are pre-approved for application on Versteel Seating. Call Versteel Customer Service with your COM selection to determine if it has been pre-approved. If your selection has not been pre-approved, reference the "Receiving COM Approval" section below.

**Receiving COM Approval**

Not all materials are suitable for upholstery on The Maker Project. A 12" x 12" memo sample must be supplied for approval before a COM material is accepted for an order. If the material is directional in pattern or weave, the pattern repeat (in inches) in both directions or the weave direction must be supplied.

**Excess COM**

Versteel will not store excess COM for more than 30 days after the order has been completed. If excess material is to be returned after order completion, send the request to Versteel Customer Service prior to acknowledged ship date. It is the customer's responsibility to arrange for the return of the material "freight collect."

**COM Requiring Application Test**

If an application test is required for your selected COM, send test sample material along with the following.

1. Name and return address
2. Model selected
3. Sketch showing special requirements for the positioning of the materials' pattern on the seat and ledge, if special considerations are required.

**NOTE** ALL UPHOLSTERIES ARE CUT UP THE ROLL TO MAXIMIZE YIELD AND WEAR PERFORMANCE

**Ship COM to:**

Versteel  
 2332 Cathy Lane  
 Jasper, IN 47546

COM must be shipped to the factory with transportation costs "prepaid." If material is considered defective or unusable, it will be returned "transportation collect."

For standard lead time orders, tag fabric with purchase order number and identify with project number if possible.

**Application of Directional Fabrics**

Due to the upholstering process, some fabrics not considered directional by the supplier may be considered directional by Versteel.

All COM's are cut "up the roll" unless otherwise directed by the customer (see illustration below).

**EXAMPLE** PATTERN CUT UP THE ROLL

If special cutting or upholstery application is required, you must indicate requirement at time of order entry.

**Maker COM Yardage Requirements**

COM yardage requirements are calculated for chairs and stools based on a material width of 54" and a repeat of 2" or less. For material less than 54" wide, contact Versteel for yardage requirements. Use the chart below as a guide to calculate your COM yardage. For quantities greater than 20 chairs or stools, contact Versteel Customer Service for calculation of COM yardage by model.

**Patterned COM Additional Yardage Guide**

Use the guide below to aid in ordering the appropriate COM fabric when needing to match a pattern with a repeat. To use this guide, add the vertical and horizontal repeats together (e.g. a 5" vertical repeat plus an 11" horizontal repeat gives a 16" total). Then find the appropriate entry on the chart, and increase the yardage estimate by the percentage indicated.

For example: The yardage estimate is 8 yards of 54" wide fabric and the pattern has a repeat of 11" horizontal and 5" vertical. Add up the repeats (11" + 5" = 16") and find the appropriate entry - 15% in this example. Fifteen percent more fabric is required to match the pattern. 8 yards plus an extra 15% is 9.2 yards.

Fabric Width	Plain Fabric	3" - 14" Repeat	15" - 19" Repeat	20" - 27" Repeat	28" - 36" Repeat	37" - 45" Repeat	46" - 54" Repeat
54"	0%	10%	15%	20%	25%	30%	35%
50" - 52"	10%	20%	25%	30%	35%	40%	45%

**Decorative Patterns**

Yardage requirements are greatly affected by the size of the repeat and the print or pattern of the material. Versteel cuts all seating patterns with aesthetic concerns in mind for high quality and consistency. Refer to the COM listing for the yardage required for pattern repeat.

**Metal Processing**

Studio Steel® is Versteel’s “urban fabrication” process which leaves the telltale signs of welding and assembly on the surface, highlighting a manufacturing aesthetic. Choosing a clear or transparent powder coat is recommended, allowing tonal striations (created as a result of extreme heat), natural textures, and the inherent qualities of raw steel to show through.

**Powder Coat Finishes**

All powder coat finishes in the Versteel offering have been formulated with the use of epoxy, polyester or epoxy and polyester blends to maximize the finish durability.
