Laminate and veneer tops are 1 1/4" thick. Corian® tops have a 1" top thickness. All are standard with square corners.

Leg Materials

Ash, Cherry, Maple or Walnut triangular wood legs are available in the standard Versteel finishes. The metal reveal is available in any standard powder coat, Chrome or Nickel.

Laminate and Veneer, Standard Core Construction

The standard top construction consists of 45-50 lb particleboard, surfaced with a high pressure laminate or plain sliced veneer face. A backer sheet is laminated to the underside of the top. Tops are shipped with rectangular understructure attached and pre-drilled for field installation of bases and accessories.

Corian® Construction

Tops are 1/2" Corian® with a 7/16" thick plywood subtop glued to the bottom side with a 1/2" Corian® rim applied to conceal the plywood subtop. The underside is bored to allow pressing in metal screw inserts for field installation of the legs and/or connectors.
