

Rollic

Tables, Ottoman, Storage + Partitions

THE
BEST
IDEA

How Do You *Rollic?*

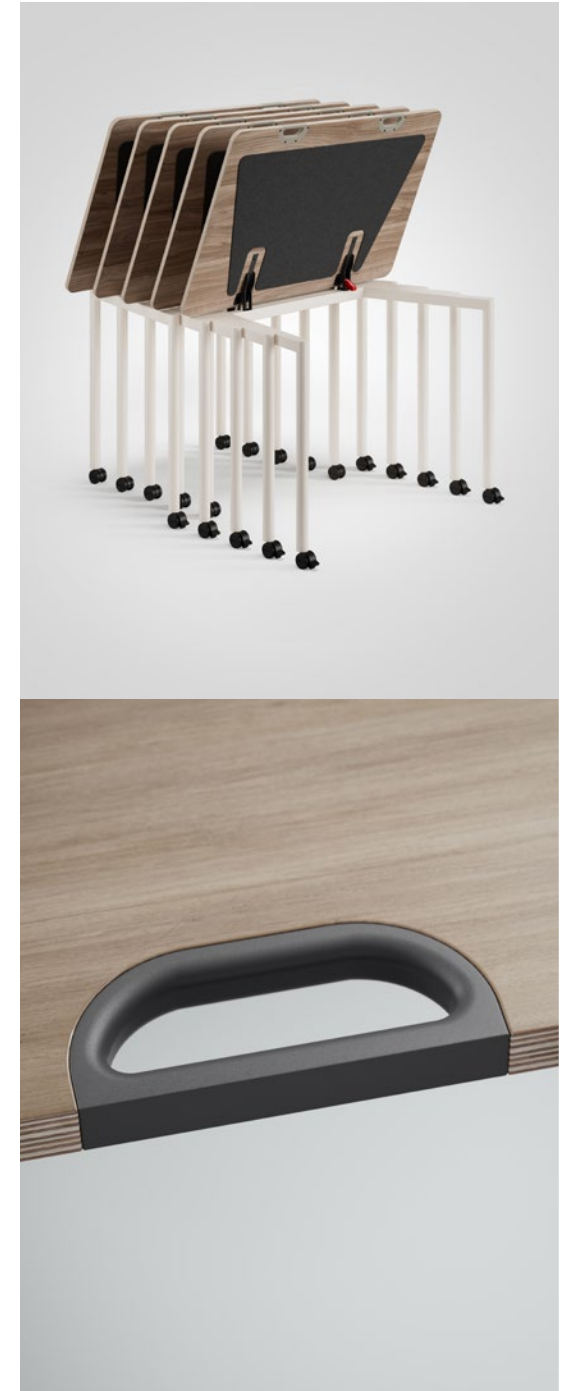

Rollic reimagines adaptive environments by prioritizing intuitive movement, seamless transitions, and playful configurability. Thoughtfully designed with purposeful geometry and effortless mobility, each component works together as part of a responsive system that supports dynamic workflows.

Mobile tables: design and function at its finest
Flip-up top with urethane handles for flexibility
PET on underside creates acoustical comfort

Where synergy
+ solitude mingle

Every table, ottoman, storage unit, and partition moves smoothly on casters. Its unique, angled geometry allows for space-saving alignment, nesting, and interaction for near-infinite possibilities. PET, markerboard, acrylic, and shelf partitions shift spaces from focus to collaboration instantly.

Made for the
moment,
and every
moment after.

Structure without confinement

With Rollic, a little goes a long way, providing countless layouts with a concise offering. Designed for future-ready motion and intuitive human interaction, each piece invites effortless engagement while working beautifully as part of a larger composition to give freedom to reimagine spaces with ease.

Table

Roll. Flip. Nest.

**Ottoman + Storage**

Sit. Store. Collaborate.

**Partitions**

Write. Pin. Reconfigure. Nest.

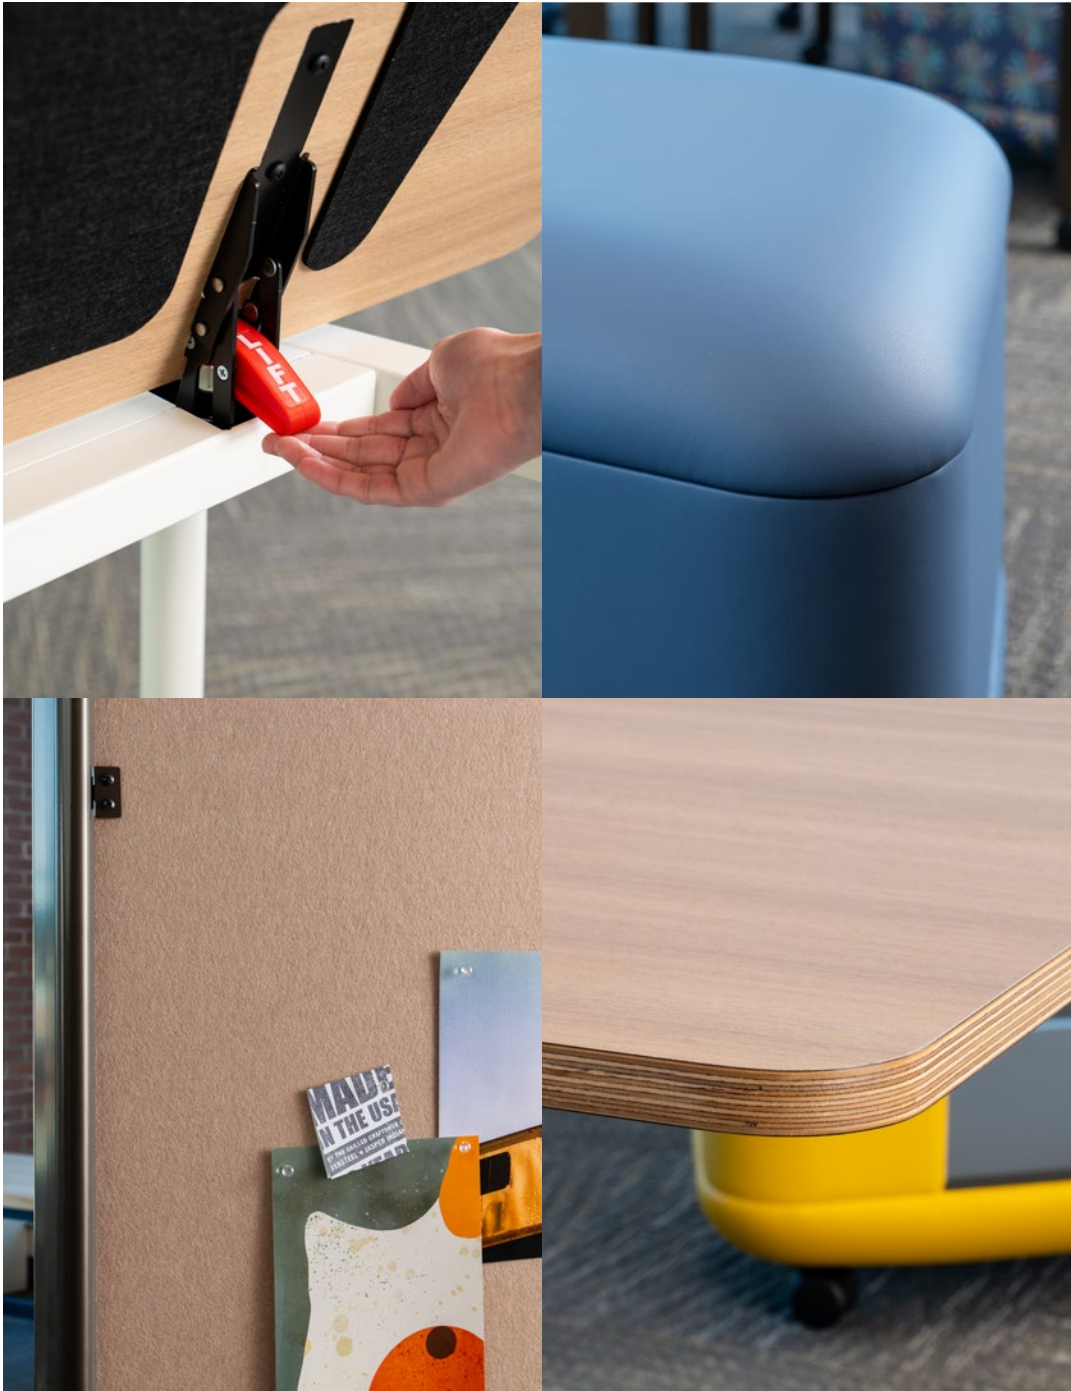

Pair It Up

Arrange and rearrange.

Rollic empowers spaces to move freely, creating fluid environments where collaboration and focus flow. Reimagine spaces as a living, responsive system. Easily rearrange without tools, connection, or disassembly. Design is in the details. Double-sided laminate on tops and shelves. Dual-textile option on ottoman.

Designed exclusively for Versteel by Henner Jahns, Gecco Vision.
