

Laptop Lockers

REVIEW

Laptop Lockers are mounted inside the table top serving as a way to safely secure the laptop preventing it from theft or damage. This option is available on several of the Versteel table series. The position of the laptop locker in the table allows for a variety of Power & Data applications that incorporate wire management and modesty panels. All to keep your room organized! Laptop Lockers are “Made in the USA” by proud men and women of Southern Indiana, and backed by the Versteel Lifetime Warranty.
