

Deci

VERSTEL

**Deci** won't wobble, wiggle or waver when put to the test in today's most demanding and diverse environments. Underneath the extremely slim profile and delicate appearance is a laser cut, solid steel plate which provides stability and balance. Adjustable glides are standard on every Deci base for leveling in uneven environments.

Designed by The Versteel Design Team.

**SPECIFICATIONS**

- Top thickness 1.25" or 1.75"
- Multiple edge options available
- Welded construction
- Round column with round or square base
- Square column with round or square base

**FEATURES + BENEFITS**

- Standard with adjustable glides
