

A close-up photograph of a wooden table's corner. The top edge shows a light-colored wood grain. Below it, a dark-stained wooden leg is visible, with a vertical metal rod or bolt passing through its center. The background is a solid, light blue-grey color.

Arvo

VERSTEEL

Arvo exhibits a flawless blend of grace and strength. The metal reveal of the leg is an aesthetic detail with hidden functionality: behind the tapered wooden leg the metal forms a triangular frame that is both thin and strong. This refined table can be used in gathering, studying or meeting areas.

Designed exclusively for Versteel by Roberto Lucci.
